Product Pipeline Overview
February 2018

The Swiss biotech R&D sector is dynamic and highly innovative. This pipeline overview displays the innovation spirit of selected member companies of the Swiss Biotech Association. This overview is updated regularly and its content is addressing the stakeholder community of the industry.

The SBA Mission:

specific platforms

The Swiss Biotech Association represents the interests of the biotech sector, supports the entrepreneurship of biotech companies, and accrues value for them through the following activities:

Development of optimal operation conditions for the biotech sector: Dissemination of accomplishments in biotechnology: Representation of the biotech interests to policy makers

Stakeholders' linking at national and international level:

• Through the development and maintenance of biotechnology-

Organisation of and participation to national and international events

- - Knowledge and technology transfer
 - Financing conditions for biotech companies • Education and professional development

Notice: The information and data contained in this document are believed to be correct and are given in good faith. However, no liability, warranty or guarantee of final product performance is created by this document. No freedom from any patent is granted or to be inferred. This document does not constitute a specification of any sort.

Collaboration with strategic partners:

• Increase of the visibility at national and international level

CH-8004 Zurich Tel. +41 (0)44 455 56 78 www.swissbiotech.org info@swissbiotech.org

For more information on becoming a member of SBA please contact the:

Swiss Biotech Association

Stauffacherstrasse 16

Contact

To the political audience and to the general public • Support of: Through the national biotech platform

- As a member of national and international umbrella organisations • Through collaborations with life sciences clusters / initiatives

With national and EC funding agencies

Logo	Company	Product	Therapeutic Area	Indication	Partnering Status	Prec	clinical	Phase I	Phase II	Phase III	Filing	On Market	Where
	AC Immune	ACI-24 (Anti-Abeta Vaccine)	CNS	Alzheimer's Disease									
	AC Immune	Crenezumab (Anti-Abeta mAb)	CNS	Alzheimer's Disease Treatment	Exclusively licensed to Genentech								
	AC Immune	Crenezumab (Anti-Abeta mAb)	CNS	Alzheimer's Disease Prevention	Exclusively licensed to Genentech
